PRESENTATION DECK MAY 2021

INTRODUCTION:

WHAT IS FROGE FINANCE?

FROGE is the world's first eco defi: **The first crypto that is a net positive for the environment.**

Every transaction (buy/transfer/sell):

- 1% passive income
- 1% "burn"
- 0.1% fundraising for Cool Earth
- FROGE is the first mover in it's market (like BTC and Coca Cola)

ECO-DEFI WORKS: COOL WITH COOL EARTH

“Of the world’s remaining forests, 46% are fragmented, 30% are degraded, and only 24% are intact.”

The rainforest is the best carbon capture and storage technology we have.

Protecting the rainforest is key to fight climate change
Cool Earth works with rainforest communities to fight deforestation and protect biodiversity (<https://coolearth.org>)

THE BENEFITS OF HOLDING (‘HODLING’) FROGE

- Limited supply (500 billion tokens at launch)
- 1% burn: every transaction 1% is removed from supply forever
-> a stark contrast to contemporary monetary policy
- 1% redistribution: every transaction 1% is redistributed pro rata to all FROGE holders -> a great alternative to savings accounts that yield little to no interest
- 0,1% Cool Earth donation: the donation is sent directly to the Cool Earth wallet (in one month, FROGE has raised \$ 250,000 for Cool Earth)

IMPORTANT FROGE MILESTONES (ONE MONTH IN)

- Tracked listings on CoinMarketCap, CoinGecko and Coinbase
- Passing the audit of the FROGE smart contract (Techrate audit)
- Listing on our first CEX: WhiteBIT
- Community creation/getting influencers on our side
- Setting up the FROGE Foundation in the Netherlands to reach out to legacy media

FROGE ROADMAP: MAJOR STAGES

- **FROGESWAP LAUNCH MAY 14th** (which will allow for buying FROGE on the Binance Smart Chain)
- New tokenomics on BSC will allow for a dev/marketing wallet: expansion through loans/marketing/new listings on CEX's
- Setting up farming on PancakeSwap
- PandaFroge (the NFT Masterplan): a platform where charity of repute can launch series of NFT's
- Legacy media outreach
