

FrogeX Greenpaper

Rev 3 3-29-2022

A comprehensive guide
to the world's best Eco-Defi

What FrogeX is about...

Purpose

The FrogeX Team believes in a world where everyone has safe access to premium financial services without worry of environmental impact.

FrogeX is a next-generation crypto asset, designed from the ground up to allow its holders to accumulate wealth while contributing to the ongoing fight for the environment.

What is Eco-Defi?

Eco-Defi, shortened from Ecology-Focused Decentralized Finance, means that FrogeX is a token which exists to give back not just to holders but to the ecologic security of the planet as well.

This means that as the Flagship Eco-Defi Token and Successor to the World's First Eco-Defi, Froge Finance, FrogeX generates both awareness and revenue which go towards repairing the damage cryptocurrencies have done to the environment.

Tokenomics Ethos

Our Tokenomics are directly tied to the idea of Eco-Defi. Making it possible to passively receive dividends while contributing to the future of both the token and the planet.

Tokenomics for a Better World

Low-Gas by Design

Developed and Built by Todd “Moonco” Durica, the contract for FrogeX is completely custom and designed to have the lowest gas usage while still delivering incredible functionality.

On average transactions of FrogeX are similar in cost to tokens such as USDT and DAI which have essentially no tokenomics. This was achieved by developing with efficiency as the foremost ideal without sacrificing flexibility or usability.

At a glance

5% Tax on buys

- Can be altered to as much as 10% and as little as 0.1%.
- Recommended Slippage is 7%

8% Tax on sells

- Can be altered to as much as 16% and as little as 0.1%.
- Recommended Slippage is 10%

Taxes go towards:

- | | |
|-----------------|--------------------------------|
| - ETH Dividends | - Automatic Liquidity Creation |
| - Charity | - Marketing/Admin Costs |

Weights and Distribution

Our taxes are distributed based on a system of weights which can be changed based on the needs of the Token and Community. All tax pools receive an amount proportional to their weight value and no pool can have a weight of less than 1.

Charity and Impact

The Froge Finance Foundation

Established in The Hague, Netherlands, the Froge Finance Foundation is the charitable arm of the FrogeX community. While legally separate from the token they work hand in hand with FrogeX to raise funds for our Charity Partners.

Charity Goals

Foremost, the goal of FrogeX is to fund a cleaner and more resilient natural environment. Our team believes this is best accomplished through financing of:

- Planting trees and other plants that help sequester carbon
- Eco-justice efforts targeting the Prevention of Deforestation
- Cleaning and Preserving existing Forests and Wetlands
- Protecting the Biodiversity of our Planet

Charity Partners

One Tree Planted - Every dollar donated by the project equates to 1 new tree planted in North America.

Rainforest Foundation US - An Eco-Justice Charity whose mission is to support indigenous and traditional peoples of the world's rainforests in their efforts to protect their environment and fulfill their rights by assisting them.

More Partnerships are being pursued and will be added later.

Launch

A Pioneer's Successor

FrogeX is the Successor to Froge Finance and was launched with a 1:1 airdrop to all existing holders of Froge Finance.

Froge Finance was the World's First Eco-Defi.
FrogeX is the World's Best Eco-Defi.

Airdrop and Relaunch Methodology

Out of fairness to existing holders of Froge Finance, they received a 1:1 mint-in-wallet airdrop of FrogeX so long as their holdings were above a cutoff point. The cutoff was any wallet with less than \$2.50USD worth of Froge Finance at time of the holder snapshot on February 15th, 2022.

The community was made aware of this and anyone who fell below that cutoff was able to request manual addition to the airdrop.

Final Launch

On February 22nd, 2022 (2/22/2022) at 22:22UTC FrogeX officially launched. The Airdrop was completed over the next few hours and Uniswap trading was launched immediately following the final group of airdrops.

All holders in the snapshot received their tokens as expected.

FrogeX's Custom Contract Address is:
0x5fA54fdDF1870C344DbFaBb37dFab8700Ec0Def1
